Section III. Evaluation and Qualification Criteria

This Section complements the Instructions to Tenderers(ITT) and the Tender Data Sheet (TDS). It contains the criteria that the Purchaser will use to evaluate a tender and determine whether a Tenderer has the required qualifications. No other criteria shall be used other than those stated here and otherwise the conformity with commercial requirements and Technical Specifications (ITT 18)

Contents

1. Evaluation Criteria (ITT 36)
2. Post qualification Requirements (ITT 38)

NOTE:

1. To the extent practicable, differences in Tenders resulting from application of Evaluation Criteria shall be expressed as monetary values to be added to tender prices for comparison purposes, after arithmetical correction, adjustment for omissions and application of discounts. These differences may relate to technical characteristics, performance shortfalls and purchase terms and conditions.
2. The Evaluation Criteria shall only be employed if there is strong confidence that the methodology is fair to the Tenderers, which are technically valid and will guarantee accurate, reliable and verifiable Supplier Data.
3. Post qualification need not be applied for acquiring readily available items of known quality from suppliers of good repute. Otherwise, only information essential for confirming a Tenderer's capability to successfully undertake the contract should be sought, using key capacity and financial factors, on a pass/ fail basis.
4. The application of Domestic Preference will be infrequent in Samoa and shall in every case be subject to prior approval of the Tenders Board.

1. Evaluation Criteria (ITT 36)

The Purchaser's evaluation of a tender **will take into account**, in addition to the Tender Price quoted and technical compliance to tender specification of equipment, in accordance with ITT 14.6, **one or more of the following factors** as specified in ITT 36.2(d) and in the **TDS 36.2(d)**, using the following criteria and methodologies.

- (a) **Delivery schedule.** (as per Incoterms specified in the **TDS 14.5**)

The Goods specified in the List of Goods are required to be delivered within the acceptable time range (after the earliest and before the final date, both dates inclusive) specified in Section VI, Delivery Schedule. No credit will be given to deliveries before the earliest date, and tenders offering delivery after the final date shall be treated as non-responsive. Within this acceptable period, an adjustment, as

specified in the TDS 36.2 (d), will be added, for evaluation purposes only, to the tender price of tenders offering deliveries later than the “Earliest Delivery Date” specified in Section VI - Delivery Schedule.

(b) **Deviation in payment schedule.**

Tenderers shall state their tender price for the payment schedule outlined in the SCC. Tenders shall be evaluated on the basis of this base price. Tenderers are, however, permitted to state an alternative payment schedule and indicate the reduction in tender price they wish to offer for such alternative payment schedule. The Employer may consider the alternative payment schedule and the reduced tender price offered by the Tenderer selected on the basis of the base price for the payment schedule outlined in the SCC.

(c) **Cost of major replacement components, mandatory spare parts, and service.**

(i) *The list of items and quantities of major assemblies, components, and selected spare parts, likely to be required during the initial period of operation specified in the TDS 18.3, is in the List of Goods. An adjustment equal to the total cost of these items, at the unit prices quoted in each tender, shall be added to the tender price, for evaluation purposes only.*

(d) Specific additional criteria

No additional criteria.

2. Post-qualification Requirements (ITT 38.2)

After determining the lowest-evaluated tender in accordance with ITT Sub-Clause 37.1, the Purchaser shall carry out the post-qualification of the Tenderer in accordance with ITT 38, using only the requirements specified. Requirements not included in the text below shall not be used in the evaluation of the Tenderer’s qualifications.

Purchaser Requirements

Government of Samoa has completed building a new Parliament House in Mulino, Apia, Samoa. The PH House is now in use. A Standby generator was not installed as part of the new PH.

The Standby Generator will be installed on the existing concrete generator plinth adjacent to the Parliament House in the Parliamentary Complex. The existing plinth is approximately **5.000** metres long x **3.200** metres wide and **1.000** metres above ground level.

The Electric Power Corporation will install cabling from the standby generator to the Parliament House.

Parliament electrical supply is from a transformer with a auto transfer switch already installed in the main switchboard of the building. Normal load of Parliament House is 350KVA.

Scope of Work by Contractor

Scope of equipment to be supplied by Contractor:

- a. 350kVA (prime) containerized soundproof generator with sub-base fuel tank.
- b. Generator, container, and electrical switchgear to be coated with extra rust coating to protect gear from salt spray from ocean.
- c. Consumable spare parts for generator and other electrical spares, including but not necessarily limited to filters, coolant, belts, hoses, etc. The Supplier shall itemise the spare parts (items and quantity) included in the bid.
- d. Materials needed to complete installation and interconnection of generator to electrical switchgear and fuel system.
- e. Include starting batteries and charger system connected off building power supply to keep battery charged at time; charger to switch off when battery is charged; secure/battery so that it is not easily stolen.

Scope of installation of generator:

- a. Supply and installation of containerized, sound proofed 350kVA standby generator with sub-base fuel tank. Generator, container, and electrical switchgear to be coated with extra rust coating to protect gear from salt spray from ocean.

Specification of Equipment Supplied

Generator to automatically start up and load transferred from EPC grid, on power outage, and within a minute, standby generator takes over power supply to building; include an auxiliary battery charger connected of generator house power to maintain battery charged; generator will also have its own charger to charge the battery when

generator is turned on; exhaust system to be fully insulated and use a sound proof muffler to minimize noise; include a exhaust pipe to discharge exhaust outside of the building; container to be soundproofed so that noise level at the Parliament House is no more than 65decibel (DB). Include on generator control panel gauges for oil temp, cooling temperature, pressure, kw output, amps, voltages, kwh power generated.

Factory Test of Generator

Normal factory test plus following if not in standard factory testing:

- Load test 100%, 75%, 50% and measure fuel used
- Run engine for an hour at each load
- Record all temperatures, pressures, readings
- Test all alarms and shutdowns.

Commissioning and Load Testing of Generator

Repeat factory commissioning and load testing on site after generator is installed. Test actual EPC power outage to test start up of generator and operation of ATS transfer load to generator. Reverse test when EPC power is restored and ATS transfer back to EPC power and shutdown of generator. Contractor to check voltages in building in each floor to make sure they are right during load testing of generator.

Test all alarms and shutdowns.

Warranty and Technical Support

Provide a 18 months long or 6,000 operating hours warranty from date of issue of certificate of operational acceptance.

Warranty shall cover parts, and labour for repair or replacement of parts. Also include airfreight of new parts here or sending of parts off-island for repair and return.

The Supplier shall obtain from any relevant third party or manufacturer any necessary permission or consent to enable the Purchaser or its designated representative to attend the test and/or inspection.
- 26.5 The Purchaser may require the Supplier to carry out any test and/or inspection not required by the Contract but deemed necessary to verify that the characteristics and performance of the Goods comply with the technical specifications codes and standards under the Contract, provided that the Supplier's reasonable costs and expenses incurred in the carrying out of such test and/or inspection shall be added to the Contract Price. Further, if such test and/or

inspection impedes the progress of manufacturing and/or the Supplier's performance of its other obligations under the Contract, due allowance will be made in respect of the Delivery Dates and Completion Dates and the other obligations so affected.

26.6 The Supplier shall provide the Purchaser with a report of the results of any such test and/or inspection.

26.7 The Purchaser may reject any Goods or any part thereof that fail to pass any test and/or inspection or do not conform to the specifications. The Supplier shall either rectify or replace such rejected Goods or parts thereof or make alterations necessary to meet the specifications at no cost to the Purchaser, and shall repeat the test and/or inspection, at no cost to the Purchaser, upon giving a notice pursuant to GCC Sub-Clause 26.4.

26.8 The Supplier agrees that neither the execution of a test and/or inspection of the Goods or any part thereof, nor the attendance by the Purchaser or its representative, nor the issue of any report pursuant to GCC Sub-Clause 26.6, shall release the Supplier from any warranties or other obligations under the Contract.

Liquidated Damages

27.1 Except as provided under GCC Clause 32, if the Supplier fails to deliver any or all of the Goods by the Date(s) of delivery or perform the Related Services within the period specified in the Contract, the Purchaser may without prejudice to all its other remedies under the Contract, deduct from the Contract Price, as liquidated damages, a sum equivalent to the percentage specified in the **SCC** of the delivered price of the delayed Goods or unperformed Services for each week or part thereof of delay until actual delivery or performance, up to a maximum deduction of the percentage specified in those **SCC**. Once the maximum is reached, the Purchaser may terminate the Contract pursuant to GCC Clause 35.

Warranty

28.1 The Supplier warrants that all the Goods are new, unused, and of the most recent or current models, and that they incorporate all recent improvements in design and materials, unless provided otherwise in the Contract.

28.2 Subject to GCC Sub-Clause 22.1(b), the Supplier further warrants that the Goods shall be free from defects arising from any act or omission of the Supplier or arising from design, materials, and workmanship, under normal use in the conditions prevailing in the country of final destination.

- 28.3 Unless otherwise specified in the **SCC**, the warranty shall remain valid for twelve (12) months after the Goods, or any portion thereof as the case may be, have been delivered to and accepted at the final destination indicated in the **SCC**, or for eighteen (18) months after the date of shipment from the port or place of loading in the country of origin, whichever period concludes earlier.
- 28.4 The Purchaser shall give notice to the Supplier stating the nature of any such defects together with all available evidence thereof, promptly following the discovery thereof. The Purchaser shall afford all reasonable opportunity for the Supplier to inspect such defects.
- 28.5 Upon receipt of such notice, the Supplier shall, within the period specified in the **SCC**, expeditiously repair or replace the defective Goods or parts thereof, at no cost to the Purchaser.
- 28.6 If having been notified, the Supplier fails to remedy the defect within the period specified in the **SCC**, the Purchaser may proceed to take within a reasonable period such remedial action as may be necessary, at the Supplier's risk and expense and without prejudice to any other rights which the Purchaser may have against the Supplier under the Contract.

Patent Indemnity

- 29.1 The Supplier shall, subject to the Purchaser's compliance with GCC Sub-Clause 29.2, indemnify and hold harmless the Purchaser and its employees and officers from and against any and all suits, actions or administrative proceedings, claims, demands, losses, damages, costs, and expenses of any nature, including attorney's fees and expenses, which the Purchaser may suffer as a result of any infringement or alleged infringement of any patent, utility model, registered design, trademark, copyright, or other intellectual property right registered or otherwise existing at the date of the Contract by reason of:
- (a) the installation of the Goods by the Supplier or the use of the Goods in the country where the Site is located; and
 - (b) the sale in any country of the products produced by the Goods.

Such indemnity shall not cover any use of the Goods or any part thereof other than for the purpose indicated by or to be reasonably inferred from the Contract, neither any infringement resulting from

the use of the Goods or any part thereof, or any products produced thereby in association or combination with any other equipment, plant, or materials not supplied by the Supplier, pursuant to the Contract.

- 29.2 If any proceedings are brought or any claim is made against the Purchaser arising out of the matters referred to in GCC Sub-Clause 29.1, the Purchaser shall promptly give the Supplier a notice thereof, and the Supplier may at its own expense and in the Purchaser's name conduct such proceedings or claim and any negotiations for the settlement of any such proceedings or claim.
- 29.3 If the Supplier fails to notify the Purchaser within twenty-eight (28) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Purchaser shall be free to conduct the same on its own behalf.
- 29.4 The Purchaser shall, at the Supplier's request, afford all available assistance to the Supplier in conducting such proceedings or claim, and shall be reimbursed by the Supplier for all reasonable expenses incurred in so doing.
- 29.5 The Purchaser shall indemnify and hold harmless the Supplier and its employees, officers, and Subcontractors from and against any and all suits, actions or administrative proceedings, claims, demands, losses, damages, costs, and expenses of any nature, including attorney's fees and expenses, which the Supplier may suffer as a result of any infringement or alleged infringement of any patent, utility model, registered design, trademark, copyright, or other intellectual property right registered or otherwise existing at the date of the Contract arising out of or in connection with any design, data, drawing, specification, or other documents or materials provided or designed by or on behalf of the Purchaser.

Limitation of Liability

- 30.1 Except in cases of negligence or wilful misconduct:
- (a) the Supplier shall not be liable to the Purchaser, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs, provided that this exclusion shall not apply to any obligation of the Supplier to pay liquidated damages to the Purchaser; and
- (b) the aggregate liability of the Supplier to the Purchaser,

whether under the Contract, in tort or otherwise, shall not exceed the amount specified in the SCC, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment, or to any obligation of the supplier to indemnify the Purchaser with respect to patent infringement.

Notwithstanding the foregoing, such additional or reduced cost shall not be separately paid or credited if the same has already been accounted for in the price adjustment provisions where applicable, in accordance with GCC Clause 15.

Force Majeure

32.1 The Supplier shall not be liable for forfeiture of its Performance Security, liquidated damages, or termination for default if and to the extent that its delay in performance or other failure to perform its obligations under the Contract is the result of an event of Force Majeure.

32.2 For purposes of this Clause, "Force Majeure" means an event or situation beyond the control of the Supplier that is not foreseeable, is unavoidable, and its origin is not due to negligence or lack of care on the part of the Supplier. Such events may include, but not be limited to, acts of the Purchaser in its sovereign capacity, wars or revolutions, fires, floods, epidemics, quarantine restrictions, and freight embargoes, and any change in Government policy or new development involving the Government.

32.3 If a Force Majeure situation arises, the Supplier shall promptly notify the Purchaser in writing of such condition and the cause thereof. Unless otherwise directed by the Purchaser in writing, the Supplier shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the Force Majeure event.

As soon as practicable after receipt of the Supplier's notice, the Purchaser shall evaluate the situation and may at its discretion extend the Supplier's time for performance, in which case the extension shall be ratified by the parties by written amendment of the Contract.
- 34.2 Except in case of Force Majeure, as provided under GCC Clause 32, a delay by the Supplier in the performance of its Delivery and Completion obligations shall render the Supplier liable to the
